

Ahmed Abdelwahab

Software Engineer · Full-Stack Developer · AI Product Builder

Software engineer working across backend engineering, full-stack web, AI engineering and mobile development. Works primarily with C#/.NET and ASP.NET Core, TypeScript and React, Python and FastAPI, and Flutter, with containerized deployment on Linux. Builds and operates his own systems, including the Universal AI Software Factory and the Najmah AI story platform.

EXPERIENCE

Software Engineer — full-stack, backend and AI systems

Independent / self-directed — Cairo, Egypt

Designs and builds backend services, web and mobile applications, and AI-driven systems, including the Universal AI Software Factory and the Najmah AI story platform.

- Design and implement backend services and REST APIs.
- Build full-stack web applications with React and TypeScript.
- Integrate LLMs, AI agents and automation into product flows.
- Deploy and operate services with Docker, Linux and NGINX.

SKILLS

Backend

C# · .NET · ASP.NET Core · Entity Framework Core · REST APIs · API Architecture

Mobile

Flutter · Dart

Growth & Marketing

SEO · Social Media Ads · Content Distribution

DevOps & Infrastructure

Docker · Linux · NGINX · Git · GitHub · HTTPS / SSL · Reverse Proxy · Deployment

Frontend

TypeScript · JavaScript · React · Vite · HTML · CSS · Tailwind CSS · Bootstrap

AI Engineering

Python · FastAPI · LLM integrations · AI Agents · AI Automation · AI Orchestration · AI Video Production · Prompt Engineering

Databases

SQL Server · PostgreSQL · Entity Framework Core · Redis

Other Languages & Tools

C++ · Godot

nextnext-gen.com ecosystem hub nextnext-gen.com

The root domain of the ecosystem: a bilingual (EN/AR, RTL) portfolio and product hub built on a typed, data-driven content layer so products can later ship on their own subdomains.

React · TypeScript · Vite · Tailwind CSS · shadcn/ui · TanStack Router

Dalil Masry — Egyptian Services Directory dalil-masry-app.lovable.app

Arabic-first directory uniting services, clinics, shops and professionals across Egypt in one searchable platform.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

Shifa Travel — Medical Tourism Platform journey-cure-haven.lovable.app

Bilingual medical-tourism platform connecting patients with accredited centers, doctors and treatment packages with full travel coordination.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

Wameedh Hub — Learning & Professional Growth Platform wameedhhub.com

Bilingual educational platform offering courses, services and coaching to help professionals build skills and advance their careers.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

IndusB2B — Industrial B2B Marketplace grand-shelf-sync.lovable.app

Arabic-first B2B platform for construction materials and industrial tools — catalog search, supplier comparison, RFQ workflows and a daily price ticker.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

Aurea Clinic OS — Aesthetic Clinic Management clinic-artistry-os.lovable.app

Operations system for aesthetic clinics — CRM, patients, appointments, treatment plans, sessions, billing, campaigns and analytics in one workspace.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Recharts

Maison Parfum — Luxury Fragrance E-Commerce perfume-joy-store.lovable.app

Bilingual luxury fragrance storefront with curated collections, a custom perfume builder, cart and account flows, and an editorial brand aesthetic.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

StockHub — Inventory Management System prod-warden.lovable.app

Arabic-first warehouse and inventory system — product management with pricing, stock movement tracking and smart low-stock alerts.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

Wameed OS — CRM & HR Business Operating System wameed-flow-hub.lovable.app

Unified business operating system combining CRM pipeline, client management, HR, project tracking, payments, campaigns and an AI assistant in one bilingual dashboard.

React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vite

Digital Operations Console — Projects, Clients & AI Command Center digitaloperations-pro.lovable.app

Multi-tenant operations command center unifying project, client, infrastructure, automation and AI-solution management behind JWT auth and Dockerized deployment.

React · TypeScript · Docker · JWT · PostgreSQL · Automation · AI

Scriptoria — Arabic AI Creator Studio scriptoria-ar.lovable.app

Arabic-first AI studio that turns a short brief into a ready-to-publish video ad, social reel or YouTube script — writing, dialect, voiceover and visuals included.

React · TypeScript · Tailwind CSS · AI · TTS · Arabic NLP · Vite

DevShield Nexus — AI Software Assurance & DevSecOps dev-shield-nexus.lovable.app

AI software-assurance platform analyzing sites, apps, APIs and source code in one pipeline — AI testing, security analysis, SEO intelligence, performance tuning and automated fixing.

React · TypeScript · Tailwind CSS · AI · LLM · DevSecOps · GitHub · Vite

Smart Shelf Builder — AI Catalog Intelligence smart-shelf-builder.lovable.app

AI catalog-intelligence platform that turns PDFs, spreadsheets and product-image folders into a branded live digital catalog — AI reads, structures, writes and translates, then auto-publishes a shareable catalog.

React · TypeScript · Tailwind CSS · AI · LLM · OCR · Computer Vision · Vite

EDUCATION

Bachelor of Engineering — Computer Science

Cairo University · 2016
